

WHAT TO DO IF MY AECHS STUDENT IS QUARANTINED

- Have your student email all of their teachers (AECHS & WCC instructors). If you have been given a date your student can return, please be sure to share this as well.
- Teachers will provide guidance on how they would like students to participate in class and complete assignments. Some teachers like for students to Zoom during their regular class time to keep them on a set schedule and current on new material. Please stress to your student the importance of attending class and completing assignments, even if it is remotely.
- WCC has a Covid-19 reporting form that students must complete when quarantined. It can be found on your student's Moodle.
- If teachers see that students are not engaged while in quarantine, they will contact our school counselor. Parents, please do the same if you feel like your student is not meeting school expectations while at home.

Most importantly, don't forget that we are only a phone call or email away!
