

Lynette Stallings
Ashe County Middle School

As a school counselor my goal is to assist all students on their journey into the future. This includes academic, personal/social and career goals. We are all growing and I find comfort in the knowledge that ACMS is full of capable and caring individuals to help us along the way.

I received my undergraduate degree at ASU and my Master's in School Counseling from Winthrop University. During the past 32 years I have worked with Pre-K through High School students. I came to

Ashe County from Charlotte Mecklenburg Schools and for the past four years worked at ACHS. I have an open door policy for students and parents. Please feel free to call or e-mail ahead in order to avoid any wait time on your part. I am excited about this year and our new capabilities for immediate access to Guidance Department information. I look forward to working with you.
