CITIZENSHIP: PEOPLE MAKING A DIFFERENCE

Strands: Individual Development and Identity, Cultures and Diversity, Historical Perspectives, Geographic Relationships, Economics and Development, Global Connections, Technological Influences, Government and Active Citizenship

COMPETENCY GOAL 1: The learner will characterize qualities of good citizenship by identifying people who made a difference in the community and other social environments.

Objectives:

- 1.01 Identify and demonstrate characteristics of responsible citizenship and explain how citizen participation can impact changes within a community.
- 1.02 Recognize diverse local, state, and national leaders, past and present, who demonstrate responsible citizenship.
- 1.03 Identify and explain the importance of civic responsibility, including but not limited to, obeying laws and voting.
- 1.04 Explain the need for leaders in communities and describe their roles and responsibilities.
- 1.05 Suggest responsible courses of action in given situations and assess the consequences of irresponsible behavior.
- 1.06 Identify selected personalities associated with major holidays and cultural celebrations.

Grade 4

NORTH CAROLINA: GEOGRAPHY AND HISTORY

Strands: Individual Development and Identity, Cultures and Diversity, Historical Perspectives, Geographic Relationships, Economics and Development, Global Connections, Technological Influences, Government and Active Citizenship

COMPETENCY GOAL 1: The learner will apply the five themes of geography to North Carolina and its people.

Objectives

- 1.01 Locate, in absolute and relative terms, major landforms, bodies of water and natural resources in North Carolina.
- 1.02 Describe and compare physical and cultural characteristics of the regions.
- 1.03 Suggest some influences that location has on life in North Carolina such as major cities, recreation areas, industry, and farms.
- 1.04 Evaluate ways the people of North Carolina used, modified, and adapted to the physical environment, past and present.
- 1.05 Assess human movement as it relates to the physical environment.

Hottest Coldest Highest Deepest	Jenkins	Social Studies	NF	6-10	920	M	20-24	ABD978509	\$5.95		
Wicked and Wonderful Water - Shockwave	* Schmauss		NF	9-12	640	S	40	ABD135841	\$6.95		

Competency Goal 2 The learner will examine the importance of the role of ethnic groups and examine the multiple roles they have played in the development of North Carolina.

Objectives

- 2.01 Locate and describe American Indians in North Carolina, past and present.
- 2.02 Trace the growth and development of immigration to North Carolina, over time from Europe, Asia, and Latin America..
- 2.03 Describe the similarities and differences among people of North Carolina, past and present.
- 2.04 Describe how different ethnic groups have influenced culture, customs and history of North Carolina.

Roanoke: The Lost Colony - Unsolved Mystery from History	Yolen	Social Studies	NF	8-11	850	Q	40	ABD902452	\$5.95		

Competency Goal 4 The learner will analyze social and political institutions in North Carolina such as government, education, religion, and family and how they structure society, influence behavior, and respond to human needs.

Objectives

- 4.01 Assess and evaluate the importance of regional diversity on the development of economic, social, and political institutions in North Carolina.
- 4.02 Identify religious groups that have influenced life in North Carolina and assess the impact of their beliefs.
- 4.03 Explain the importance of responsible citizenship and identify ways North Carolinians can participate in civic affairs.
- 4.04 Examine ways North Carolinians govern themselves and identify major government authorities at the local and state level.
- 4.05 Identify and assess the role of prominent persons in North Carolina, past and present.

Competency Goal 5 The learner will examine the impact of various cultural groups on North Carolina.

- 5.01 Explain different celebrated holidays, special days, and cultural traditions in North Carolina communities.
- 5.02 Describe traditional art, music, and craft forms in North Carolina.
- 5.03 Describe and compare the cultural characteristics of regions within North Carolina and evaluate their significance.

Competency Goal 6 The learner will evaluate how North Carolinians apply basic economic principles within the community, state, and nation.

Objectives

- 6.01 Explain the relationship between unlimited wants and limited resources.

COMPETENCY GOAL 5: The learner will evaluate ways the United States and other countries of North America make decisions about the allocation and use of economic resources.

Objectives

- 5.01 Categorize economic resources found in the United States and neighboring countries as human, natural, or capital and assess their long-term availability.
- 5.02 Analyze the economic effects of the unequal distribution of natural resources on the United States and its neighbors.
- 5.03 Assess economic institutions in terms of how well they enable people to meet their needs.
- 5.04 Describe the ways in which the economies of the United States and its neighbors are interdependent and assess the impact of increasing international economic interdependence.
- 5.05 Evaluate the influence of discoveries, inventions, and innovations on economic interdependence.
- 5.06 Examine the different economic systems such as traditional, command, and market developed in selected countries of North America and assess their effectiveness in meeting basic needs.
- 5.07 Describe the ways the United States and its neighbors specialize in economic activities, and relate these to increased production and consumption.
- 5.08 Cite examples of surplus and scarcity in the American market and explain the economic effects.

COMPETENCY GOAL 6: The learner will recognize how technology has influenced change within the United States and other countries in North America.

Objectives

6.01 Explore the meaning of technology as it encompasses discoveries from the first primitive tools to today's personal computer.

6.02 Relate how certain technological discoveries have changed the course of history and reflect on the broader social and environmental changes that can occur from the discovery of such technologies.

6.03 Forecast how technology can be managed to have the greatest number of people enjoy the benefits.

6.04 Determine how citizens in the United States and the other countries of North America can preserve fundamental values and beliefs in a world that is rapidly becoming more technologically oriented.

6.05 Compare and contrast the changes that technology has brought to the United States to its impact in Canada, Mexico, and Central America.

6.06 Predict future trends in technology management that will benefit the greatest number of people.

Grade 6

SOUTH AMERICA AND EUROPE

Strands: Geographic Relationships, Historic Perspectives, Economics and Development, Government and Active Citizenship, Global Connections, Technological Influences and Society, Individual Identity and Development, Cultures and Diversity

COMPETENCY GOAL 1: The learner will use the five themes of geography and geographic tools to answer geographic questions and analyze geographic concepts.

Objectives

1.01 Create maps, charts, graphs, databases, and models as tools to illustrate information about different people, places and regions in South America and Europe.

1.02 Generate, interpret, and manipulate information from tools such as maps, globes, charts, graphs, databases, and models to pose and answer questions about space and place, environment and society, and spatial dynamics and connections.

1.03 Use tools such as maps, globes, graphs, charts, databases, models, and artifacts to compare data on different countries of South America and Europe and to identify patterns as well as similarities and differences among them.

COMPETENCY GOAL 2: The learner will assess the relationship between physical environment and cultural characteristics of selected societies and regions of South America and Europe.

Objectives

2.01 Identify key physical characteristics such as landforms, water forms, and climate, and evaluate their influence on the development of cultures in selected South American and European regions.

2.02 Describe factors that influence changes in distribution patterns of population, resources, and climate in selected regions of South America and Europe and evaluate their impact on the environment.

COMPETENCY GOAL 3: The learner will analyze the impact of interactions between humans and their physical environments in South America and Europe.

Objectives

3.01 Identify ways in which people of selected areas in South America and Europe have used, altered, and adapted to their environments in order to meet their needs, and evaluate the impact of their actions on the development of cultures and regions.

3.02 Describe the environmental impact of regional activities such as deforestation, urbanization, and industrialization and evaluate their significance to the global community.

3.03 Examine the development and use of tools and technologies and assess their influence on the human ability to use, modify, or adapt to their environment.

3.04 Describe how physical processes such as erosion, earthquakes, and volcanoes have resulted in physical patterns on the earth's surface and analyze their effects on human activities.

COMPETENCY GOAL 5

The learner will evaluate the ways people of South America and Europe make decisions about the allocation and use of economic resources.

Objectives

5.01 Describe the relationship between the location of natural resources and economic development, and assess the impact on selected cultures, countries, and regions in South America and Europe.

5.02 Examine the different economic systems, (traditional, command, and market), developed in selected societies in South America and Europe, and analyze their effectiveness in meeting basic needs.

5.03 Explain how the allocation of scarce resources requires economic systems to make basic decisions regarding the production and distribution of goods and services, and evaluate the impact on the standard of living in selected societies and regions of South America and Europe.

5.04 Describe the relationship between specialization and interdependence, and analyze its influence on the development of regional and global trade patterns.

Competency Goal 9

The learner will analyze the different forms of government developed in South America and Europe.

Objectives

- 9.01 Trace the historical development of governments including traditional, colonial, and national in selected societies and assess the effects on the respective contemporary political systems.
- 9.02 Describe how different types of governments such as democracies, dictatorships, monarchies, and oligarchies in selected areas of South America and Europe carry out legislative, executive, and judicial functions, and evaluate the effectiveness of each.
- 9.03 Identify the ways in which governments in selected areas of South America and Europe deal with issues of justice and injustice, and assess the influence of cultural values on their practices and expectations.
- 9.04 Describe how different governments in South America and Europe select leaders and establish laws in comparison to the United States and analyze the strengths and weaknesses of each.

Competency Goal 10

The learner will compare the rights and civic responsibilities of individuals in political structures in South America and Europe.

Objectives

- 10.01 Trace the development of relationships between individuals and their governments in selected cultures of South America and Europe, and evaluate the changes that have evolved over time.
- 10.02 Identify various sources of citizens' rights and responsibilities, such as constitutions, traditions, and religious law, and analyze how they are incorporated into different government structures.
- 10.03 Describe rights and responsibilities of citizens in selected contemporary societies in South America and Europe, comparing them to each other and to the United States.
- 10.04 Examine the rights, roles, and status of individuals in selected cultures of South America and Europe, and assess their importance in relation to the general welfare.

Competency Goal 11

The learner will recognize the common characteristics of different cultures in South America and Europe.

Objectives

- 11.01 Identify the concepts associated with culture such as language, religion, family, and ethnic identity, and analyze how they both link and separate societies.
- 11.02 Examine the basic needs and wants of all human beings and assess the influence of factors such as environment, values and beliefs in creating different cultural responses.
- 11.03 Compare characteristics of political, economic, religious, and social institutions of selected cultures, and evaluate their similarities and differences.

Competency Goal 13

The learner will describe the historic, economic, and cultural connections among North Carolina, the United States, South America, and Europe.

Objectives

13.01 Identify historical movements such as colonization, revolution, emerging democracies, migration, and immigration that link North Carolina and the United States to selected societies of South America and Europe and evaluate their influence on local, state, regional, national, and international communities.

13.02 Describe the diverse cultural connections that have influenced the development of language, art, music, and belief systems in North Carolina and the United States and assess their role in creating a changing cultural mosaic.

13.03 Examine the role and importance of foreign-owned businesses and trade between North Carolina and the nations of South America and Europe, and evaluate the effects on local, state, regional, and national economies and cultures.

<i>Grade 7</i>											
<i>AFRICA, ASIA, AND AUSTRALIA</i>											
<i>Competency Goal 1</i>											
<i>The learner will use the five themes of geography and geographic tools to answer geographic questions and analyze geographic concepts.</i>											
<i>Objectives</i>											
<i>1.01 Create maps, charts, graphs, databases, and models as tools to illustrate information about different people, places and regions in Africa, Asia, and Australia.</i>											
<i>1.02 Generate, interpret, and manipulate information from tools such as maps, globes, charts, graphs, databases, and models to pose and answer questions about space and place, environment and society, and spatial dynamics and connections.</i>											
<i>1.03 Use tools such as maps, globes, graphs, charts, databases, models, and artifacts to compare data on different countries of Africa, Asia, and Australia and to identify patterns as well as similarities and differences.</i>											
<i>Competency Goal 2</i>											
<i>The learner will assess the relationship between physical environment and cultural characteristics of selected societies and regions of Africa, Asia, and Australia.</i>											
<i>Objectives</i>											
<i>2.01 Identify key physical characteristics such as landforms, water forms, and climate and evaluate their influence on the development of cultures in selected African, Asian and Australian regions.</i>											
<i>2.02 Describe factors that influence changes in distribution patterns of population, resources, and climate in selected regions of Africa, Asia, and Australia and evaluate their impact on the environment.</i>											
<i>2.03 Examine factors such as climate change, location of resources, and environmental challenges that influence human migration and assess their significance in the development of selected cultures in Africa, Asia, and Australia.</i>

Competency Goal 3

The learner will analyze the impact of interactions between humans and their physical environments in Africa, Asia, and Australia.

Objectives

3.01 Identify ways in which people of selected areas in Africa, Asia, and Australia have used, altered, and adapted to their environments in order to meet their needs and evaluate the impact of their actions on the development of cultures and regions.

3.02 Describe the environmental impact of regional activities such as deforestation, urbanization, and industrialization and evaluate their significance to the global community.

3.03 Examine the development and use of tools and technologies and assess their influence on the human ability to use, modify, or adapt to their environment.

3.04 Describe how physical processes such as erosion, earthquakes, and volcanoes have resulted in physical patterns on the earth's surface and analyze the effects on human activities.

The learner will examine the causes, course, and character of the Civil War and Reconstruction, and their impact on North Carolina and the nation.

Objectives

- 4.01 Identify and analyze the significance of the causes of secession from the Union, and compare reactions in North Carolina to reactions in other regions of the nation.*
- 4.02 Describe the political and military developments of the Civil War and analyze their effect on the outcome of the war.*
- 4.03 Assess North Carolina's role in the Civil War and analyze the social and economic impact of the war on the state.*
- 4.04 Evaluate the importance of the roles played by individuals at the state and national levels during the Civil War and Reconstruction Period.*
- 4.05 Analyze the political, economic, and social impact of Reconstruction on the state and identify the reasons why Reconstruction came to an end.*
